

Wrap egg in 6"x4 1/2" bubble wrap and tape in center.

Fold bubble wrap over at pointy end and place in carton. Fold top over and tape.

The carton lids, which are cut from carton, are placed on top of eggs and held in place with 2 rubber bands.

Place cartons in a medium priority box. I use equal amounts of shredded paper under and on top of box and around sides.

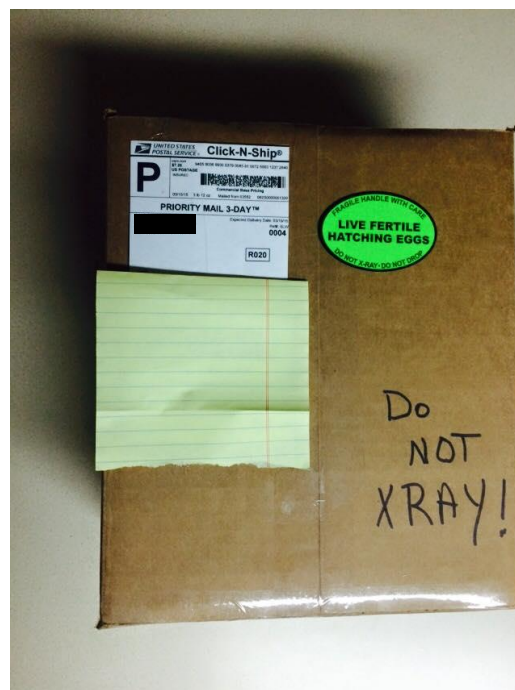

Shredded paper filled to top of box.

For added security and insulation, I place priority box inside of a 12"x10"x6" box. I purchase these boxes from Uline, cost including shipping approx \$1.35 es.

News paper stuffed around edges.

Eggs ready to ship. I use click and ship to save \$. The egg stickers are available on eBay, 10 cents ea.
